THE Zealandia is entering the harborias this paper goes to press.

THE Australia sails Friday, August 20th, at noon, for San Francisco. THE members of Engine Co. No. 2 were drilling near Emma Square

CAPT. Hobron was not quite so weil when the Australia left San

MR. William P. Jones does not leave for the States until August 30th on the Australia.

THERE will be union service at Kaumakapili Church Sunday evening at 7:30 o'clock,

Mas. Wm. Foster, wife of the Police Justice, who has been quite seriously ill, is now convalescent we are

THE desirable residence of Mr. Chas, Wall will be sold at auction at noon on Monday by Mr. J. F. Moigan at his salesroom.

MR. E. H. Woodworth, formerly of this city, has our thanks for copies of the Southern California Informant published at San Diego.

Mr. A. J. Cartwright will act under full power of attorney for Mr. Geo. C. Beckley during the latter's absence from the country.

Two Chinamen were both fined \$60 with 6 hours' imprisonment, for having opium unlawfully in possession, in the Police Court this morn-

Hon. Sam. Parker has returned to San Francisco from New York, after seeing his family off on their trip to Europe. He will be here on the next

THE Rev. Dr. Beckwith will preach at the Central Union Church Sunday. Subject of morning discourse, "God teaching righteousness;" evening, "The providential meaning of the late insurrection."

THE brig Geo. H. Douglass brought two more cars for the Hawaiian Tramways Company this morning. As soon as they were landed on the wharf a Custom House officer commenced to examine them to see it there was any opium on board.

THE King has conferred upon Messrs. Georges Berger, Millas and Alfred Houle the decoration of Knight Commander of the Royal Order of Crown of Hawaii, and upon Messrs. H. Souillette, S. A. Balme, Henri de Varigny and A. Sagriffe the decoration of Knight Companion of the Royal Order of the Star of Oceania, These gentlemen are all connected with the Paris Exposition.

H. B. M. S. SWIFTSURE, flagship on the Pacific, has broken her lowpressure cylinder and is disabled. She can steam but five knots an hour. The cylinder is cracked the same as the Triumph's was three years ago. Admiral Heneage has wired from Victoria, B. C., to England for the man-of-war Narcissus to take her place on the station. It will be six months before she can be have to be sent from England. It will weigh about twenty-six tons.

AUCTION SALES ON MONDAY.

BY J. F. MORGAN.

At 12 o'clock noon at salesroom, the desirable residence of Chas. Wall, situate on Liliha street. The house is in good repair, and the lot is 130 by 200 feet. Water is laid several mortgagee's sales will be

BY L. J. LEVEY.

At 12 o'clock noon at salesroom, eight cases clocks and twenty-five cases charcoal irons.

PERSONAL.

Rev. W. C. Merritt addressed the weekly meeting of the Congregational Club in San Francisco. He gave his estimate of the insurrection, believing that event would be beneficial in its results. The annexation party he declared to be in a minority. He described the religious and educational affairs of the kingdom, and said the Protestants having a native ministry did not need to send a white missionary to Molokai.

HE FINISHED HIS BREAKFAST.

A tipicsome Same Which; grid Not

Disturban Old Line Hunter. Charles E. Sisme, a wealthy Englishman who has been traveling throughout the world almost continuously forjyears, enjoys the singular prominence of being the only man who finished his breakfast at the Depot Hotel. He is a lion hunter of India, and sat at the same table with Justice Field, and directly opposite him. He had just got comfortably to work on a big meal when Judge Terry delivered

Then he saw the gleam of Marshal Neagle's revolver and the two shots, and Terry fall. He saw the blood coze from his wounds into great pools on the floor, almost at his side, and all the awfulness of the after-tragedy when Mrs. Terry flung herself on her husband's breast and with sobs lamented his death. Still Mr. Sisme ate away. He finished a very comfortable repast, all the time the excited throng flying hither and thither, and at last walked out like all the rest, without paying his bill. The passengers voted him the coolest man that ever struck the country, and he was the subject of much remark. To a crowd last evening at the Occidental,

he said: "At the first report and flash Judge Terry staggered, and when the second shot came he reeled and fell. He never spoke a word after it, and it did look rather forbidding. with the body lying there, to finish my breakfast, but I was hungry, and I determined to stay till I was done. It was a very wild scene, with the cries of Mrs. Terry and the extreme coolness of Justice Field. Mrs. Terry shouted time and again for all who were Masons to come and avenge her wrongs, she being, as

she said, the daughter of a Mason." Perhaps nobody in the eatinghouse so clearly witnessed the tragedy as Mr. Sisme, yet to all the reporters who thronged about he insisted that he did not see any part of it. He is afraid that he will be called as a witness in the case .-San Francisco Examiner.

Mr. Sisme managed to avoid a subpœna in California and is now doing these islands.

S. S. AUSTRALIA. The work done by the S.S. Austraia on her trip to Honelulu and return is an excellent showing for the boilers and engines made in this city by the Risdon Iron Works, and indicates that there is no need to go outside this city to get such work done. On the trip down favorable weather was experienced. Under easy steaming the distance was accomplished in 6 days 23 hours and 45 minutes. On the fourth day out the Australia made 332 knots in 23 hours 40 minutes, or a mean speed of 14 knots an hour on a consump tion of 37 tons of coal. There were only two fair days on the return trip, the rest being rough with strong northerly winds, notwithstanding which the steamer made the distance in 7 days 2 hours, on a daily average consumption of 41 tons of coal. Against a strong head wind she made three hundred and seven miles in one day. In previous voyages with her old engines and 75 pounds of steam the average speed of the Australia was twelve knots with a consumption of 53 tons a day. It is claimed the new triple expansion engines give a clear saving of 23 percent in coal, with an increase of two knots on throughout. At the same hour an hour. There was not a hitch in the whole voyage,-[S. F. Alta, Aug. 13th.

AN INTERESTING LETTER FROM A VETERAN.

AS this is Jubilee year it tends to make one look back and think of the flight of time, and in this way I am reminded that I am one of the veterans in the sale of your valuable and successful medicine. I have sold it from the very first, and have sent it into every country in England and many parts of Scot-land. Well do I remember the first circular you sent out some nine or ten years ago. You had come to England from America to introduce Mother Seigel's Curative Syrup, and I was struck by a paragraph in which you used these words:-"Being a stranger in a strage land, I do not wish the people to feel that I want to take the least advantage over them. I feel that I have a remedy that will cure disease, and I have so much confidence in it that I authorise my agents to refund the money if people should say that they have not benefitted by its use." I felt at once that you would never say that unless the medicine had merit, and I applied for the agency, a step which I now book back upon with pride and satisfaction.

Ever since that time I have found it by far the heat remedy for Indi-gestion and Dyspepsia I have met with, and I have sold thousands of bottles. It has never failed in any case where there were any of the following symptoms: Nervous or sick headache, sourcess of the sto-mach, rising of the food after cating, a sense of fulness and heaviness, dizziness, had breath, slime and mucus on the gums and teeth. constipation, and reliamness of the eyes and skin, dull and sleepy sensations, ringing in the cars, hearts burn, loss of appetite, and, in short, wherever there are signs that the systems is clogged, and the blood is out of order. Upon repeated in-

quiries, covering a great variety of illments, my customers have alway-

nuswered. "I am totter." or "I am perfectly well." What I have seldom or never seen before in the case of any medicine is that people tell each other of its virtues, and those who have been cured say to the suffering: "Go and get Mother Seigel's Curative Syrup, it will make you well." Out of the hundreds of cures I will name one or two that happen to come into my

Two old gentlemen, whose names they would not like me to give you, been martyrs to Indigestion Dyspepsia for many years. They had tried all kinds of medicine without relief. One of them was so bad he could not bear a glass of ale. Both were advised to use the Syrup and both recovered. and were as hale and hearty as men in the prime of life.

A remarkable case is that of a house painter named Jeffries, who lived at Penshurst, in Kent. His business obliged him to expose himself a great deal to wind and weather, and he was seized with rheumatism, and his joints soon swelled up with dropsy, and were very stiff and painful. Nothing that the doc-tors could do seemed to reach the seat of the trouble. It so crippled him that he could do hardly any work, and for the whole of the winter of 1878 and '79, he had to give up and take to his bed. He had been afflicted in this sorry way for three years, and was getting worn out and discouraged. Besides, he had spent over Li3 for what he called "doctor's stuff" without the least benefit. In the Spring he heard of what Mother Seigel's Curative Syrup has done for others and bought a 2s. Gd. bottle of me. In a few days he sent me word he was much better—before he had finished the bottle. He then sent to me for a 4s. 6d. bottle, and as I was going that way I carried it down to him myself. On getting to his house what was my astonishment and sur. prise to find him out in the garden weeding an onion bed. I could hardly believe my own eyes, and said:-

"You ought not to be out here, man, it may be the death of you, after being Jaid up all winter with rheumatism and dropsy."

His reply was: There is no dauger. The weather is fine, and Mother Seigel's Curative Syrup has done for me in a few days what the doctors could not do in three years.

I think I shall get well now.' He kept on with the Syrap, and in three weeks he was at work again and has had no return of the trouble for now nearly ten years. Any medicine that can do this should be known all over the world. Yours faithfully,

(Signed) RUPERT GRAHAM, Of Graham & Son. Holloway House, Sunbury, Middlesex, June 25th, 1887.

The above wonderful cure of Rheumatism was the result of the remarkable power of Mother Seigel's Curative Syrup to cleanse the blood of the poisonous humours that arise from Indigestion and Dyspepsia. Mother Seigel's Curative Syrup

is for sale by all chemists and medicine vendors, and by the proprie tors, A. J. White, Limited, 35, Farringdon Road, London, Eng. Jan. 13-88-2

New York Goes Equitable by a Large Majority.

No better example of the estimation in which this great Company is held, can be given, than by a comparative statement of the business done by itself and its objet competitors in their common home, the city of New York. In New York a man can get his information direct from the Hume Office of the largest companies, and has more accurate opportunities of judging their respective merits than anywhere else. As a result in the City of New York during the year 1858 the Equitable wrote a larger amount of new business than was written by its Two Largest Competitors Cambined. In the State of New York the Equitable wrote \$1,808,431 more Insurance than the aggregate of its Two Largest Competitors Taken Together. It did the Largest Business in the United States, as well as in the World at a time when all Companies were straining every nerve to pass it.

The reason why this noiversal verdiet goes with the Equitable is on account of the Popularity of its Plans and the Promptness and Fairness of its Business Mothods. As the Pioneer in Telorus its Policies have been and are being extensively imitated by others, a most graceful tribute to their merit. The primary object of Life Insurance is to provide ready money against death. No Company can approach the Equitable record for promptness in this tegard. The New Policy of the Equitable just out is (like a bank draft) a simple promise to pay and is without conditions on its back.
